Audit Plugin V04

Cegid Retail Y2 – Versions 26

cegid

Preamble

This plugin is a set of web services associated with one or more versions of Cegid Retail Y2.
This document describes its scope of implementation, as well as the changes and corrections made.
Please note: All plugin methods and services can be cited in this document. Only public methods for which the contract is published can be used by applications not designed by Cegid.

Legal notices

Permission is granted under this Agreement to download documents held by Cegid and to use the information contained in the documents only internally, provided that: (a) the copyright notice on the documents remains on all copies of the document material; (b) these documents are used for personal and non-commercial purposes, unless it has been clearly defined by Cegid that certain specifications may be used for commercial purposes; (c) documents will not be copied to networked computers or published on any type of media unless expressly authorized by Cegid; and (d) no changes are made to these documents.

3. TIMEMEASUREMENTS 10

GenerateFiles 10

4. OTHER 11

Net Framework 4.8 11

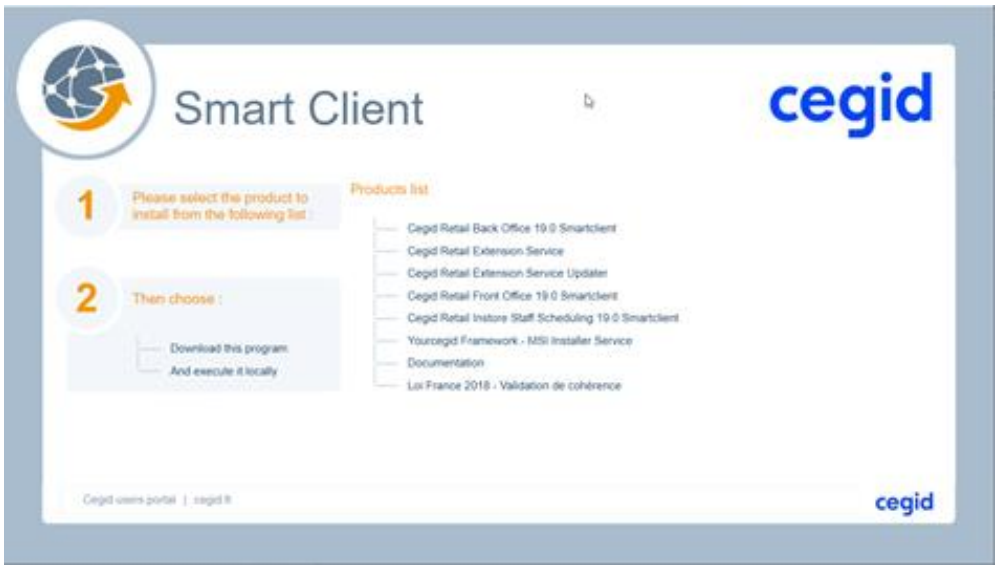
1. Objectives

The objective of the Audit plugin is to provide services relating to the management of settings common to several other plugins.
This service will be gradually enriched.

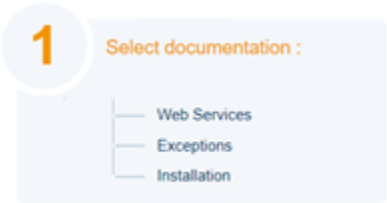
Just remind: Only public methods for which the contract is published can be used by applications not designed by Cegid. Cegid reserves the right to modify private services without ensuring backward compatibility, and without informing users.

Documentation

The service contract documentation is visible on the IIS server(s) from the software package download page:



"Documentation" is a link that provides access to the list of documentation:



➔ **Web Services**
The screen displayed provides access to the Web Services contracts and their properties.
Please note: the absence of a contract in the Web Services documentation screen means that the service is not installed or is not public.

- **Exceptions**
  This part provides access to exceptions, classified by type, and according to the plugin.

- **Installation**
  This page allows you to download Web Services installation and consumption documentation.

Y2 versions

This plugin is compatible with the following version of Cegid Retail Y2:

- Version 26

Note:
The # sign at the beginning of the plugin build number corresponds to the major version of Cegid Retail Y2.

2. USAGE

GetStores

➔ Objectives

This method returns the audit of use for the concerned stores during the analysis period.

At least 2 sections are returned:

- Counters: General counters specifying the stores in the database as well as those active within the period
- Countries: Counters of stores by country, with the notion of Country Package

Using the Detail property allows you to get details per store

The following business rules are applied:

➔ The stores are filtered according to the default user restrictions.
➔ The analysis period must not exceed 3 years.

Dev	Date	CEGID's Ref.	Pb Ref.	Pull request	Plugin Build no.	Quality Ctrl
LDE	March 2022	A2135				

➔ Improvements

GetUsers

➔ Objectives

This method returns the audit of use during the analysis period.

The Counters section is systematically returned. It contains the general counters specifying the users in the database as well as those connected within the period.

A license is counted for any user who connects to a Back Office or a Front Office that does not collect during the period.

Using the Detail property allows you to get details per user.

The following business rules are applied:

➔ The analysis period must not exceed 3 years.

Dev	Date	CEGID's Ref.	Pb Ref.	Pull request	Plugin Build no.	Quality Ctrl
LDE	March 2022	A2135				

➔ Improvements

Fixed crashes when executing the query to retrieve cash registers with open days, when the number of cash registers exceeds 2,100.

Dev	Date	CEGID's Ref.	Pb Ref.	Pull request	Plugin Build no.	Quality Ctrl
LDE	9/12/2024	Bug 1568130		298446	#3.187	

GetPosFrontOffice

➔ Objectives

This method returns the audit of Inventory Front Office POS during the analysis period.

At least 2 sections are returned:

- Counters: General counters specifying the Front Office POS in the database as well as those active within the period
- Countries: Counters of active Front Office POS per country

Using the Detail property allows you to get details per Front Office POS.

The following business rules are applied:

➔ The analysis period must not exceed 3 years.

Dev	Date	CEGID's Ref.	Pb Ref.	Pull request	Plugin Build no.	Quality Ctrl
LDE	March 2022	A2135				

➔ Improvements

Fixed to take into account only POS-type registers or those that do not exist in the PARCAISSE table (in the case of deleted registers) when counting active POS registers.

Dev	Date	CEGID's Ref.	Pb Ref.	Pull request	Plugin Build no.	Quality Ctrl
LDE	6/11/2024	Bug 1523243		266229	#3.167	

GetInventoryTracking

➔ Objectives

This method returns the audit of Inventory Tracking devices during the analysis period.

At least 2 sections are returned:

- Counters: General counters specifying the Inventory Tracking devices in the database as well as those active within the period
- Countries: Counters of Inventory Tracking devices per country.

The following business rules are applied:

➔ The analysis period must not exceed 3 years.

Dev	Date	CEGID's Ref.	Pb Ref.	Pull request	Plugin Build no.	Quality Ctrl
LDE	March 2022	A2135				

➔ Improvements

GetMpos

➔ Objectives

This method returns the audit of Inventory Tracking devices during the analysis period.

At least 2 sections are returned:

- Counters: General counters specifying the Mpos devices in the database as well as those active within the period
- Countries: Counters of Mpos devices per country.

The following business rules are applied:

➔ The analysis period must not exceed 3 years.

Dev	Date	CEGID's Ref.	Pb Ref.	Pull request	Plugin Build no.	Quality Ctrl
LDE	March 2022	A2135				

➔ Improvements

GetCountryPackages

➔ Objectives

This method returns the audit of Country Packages.

Dev	Date	CEGID's Ref.	Pb Ref.	Pull request	Plugin Build no.	Quality Ctrl
LDE	March 2022	A2135				

➔ Improvements

GetCustomOrders

➔ Objectives

This method returns the counters of e-commerce orders and non-e-commerce store orders/reservations grouped by month/year, during an analysis period.

The following business rules are applied:

- ➔ The stores are filtered according to the default user restrictions.
- ➔ The analysis period must not exceed 3 years.

Dev	Date	CEGID's Ref.	Pb Ref.	Pull request	Plugin Build no.	Quality Ctrl
LDE	March 2022	A2135				

➔ Improvements

In the E-commerce module detail, the store count was incorrect. Reservations from an e-commerce order were mistakenly matched.
The e-commerce order counter is not affected by the anomaly and was correct.

Dev	Date	CEGID's Ref.	Pb Ref.	Pull request	Plugin Build no.	Quality Ctrl
HDA	1/20/2025	1686911		346139	#3.218	

In the E-commerce module detail, the store count was incorrect. Store orders resulting from e-commerce orders delivered to the customer's premises used to be erroneously accounted for.
From now on, only e-commerce orders with an "e-commerce" store will be considered.

Dev	Date	CEGID's Ref.	Pb Ref.	Pull Request	Plugin Build no.	Quality Ctrl
LDE	3/17/2025	1735694		372135	#3.289	

3. TIMEMEASUREMENTS

GenerateFiles

➔ Objectives

This methods enables the generation of export files for time measurements.

Dev	Date	CEGID's Ref.	Pb Ref.	Pull request	Plugin Build no.	Quality Ctrl
RFO	June 2023	A		172357		

➔ Improvements

The method is now set to Released

Dev	Date	CEGID's Ref.	Pb Ref.	Pull request	Plugin Build no.	Quality Ctrl
ADU	July 2027	A2490	1565857	283516	3.177	

4. OTHER

Net Framework 4.8

Following Microsoft's announcement about the "end of support for .NET Framework 4.5.2, 4.6 and 4.6.1 as soon as April 26, 2022" the plugin now requires the installation of the .Net Framework 4.8 (runtime) on server components.

Deployment

Added installation kit for TaskSchedulerService.

Dev	Date	CEGID's Ref.	Pb Ref.	Pull request	Plugin Build no.	Quality Ctrl
EPL	10/10/2023	1167931		194211	#3.79	

Swagger

Rest/Restful APIs grouped by plugin, with the option of selecting them by plugin name.

Dev	Date	CEGID's Ref.	Pb Ref.	Pull request	Plugin Build no.	Quality Ctrl
ADU	1/10/2025	1543349		341709	#3.214
